Table 1: Demand and Supply Schedule. The table shows the relationship between price and quantity for both demand and supply. The equilibrium price is 50 and the equilibrium quantity is 50.

This table provides a detailed overview of the financial performance across three years (2020-2022) and three quarters (Q1, Q2, Q3) for each year. The data is presented in a structured format, allowing for easy comparison of revenue and expenses over time. The 'Annual Total' row summarizes the overall performance for each year, showing a consistent upward trend in both revenue and expenses. The 'Q1' and 'Q2' rows provide a more granular view of the quarterly performance, highlighting the seasonal variations in the data. The 'Q3' row shows the final quarter of each year, which typically represents a period of high activity and revenue. The 'Revenue' and 'Expenses' columns are clearly defined, ensuring that the data is easy to interpret and understand. The table is designed to be a comprehensive resource for anyone interested in the financial performance of the organization over the specified period.
